EQUIPMENT

Municipal non-profit enterprise of Lviv Regional Council «Lviv Regional Clinical Medical and Diagnostic Cardiology Center»		
1.	WorkMateClaris electrophysiological research system	
2.	Navigation system Ensite Precision	
3.	A set of electrodes and catheters for radiofrequency ablation	
4.	A set of diagnostic electrodes and catheters for electrophysiological studies of the heart	
5.	Inpatient angiographic system Biplane (with ceiling mounting)	
6.	Coronary angiography kit (transradial access)	
7.	Coronary artery stenting kit: a. Guiding Catheter 6- 7F b. Coronary Conductor (Guide Wire 0.014) c. Balloon catheter for dilation of coronary vessels (Balloon Dilatation Catheter) d. Coronary Stent System	
8.	Internal Vascular Ultrasound machine (IVUS) with Bleeding Reservation Evaluation Function (FFR or iFFR)	
9.	Rotablator Atherectomy System	
10.	Mobile X-ray machine	
11.	Expert-class ultrasound system with probes: sector, convex, linear, 3D, transesophageal; with appropriate software and the possibility of vector analysis (Speckle tracking)	
12.	Expert class ultrasound system portable with sector, convex,	

	transesophageal probes	
13.	Biochemical analyzer (automatic) for determining - AST (aspartate aminotransferase) - ALT (alanine aminotransferase) - creatinine - urea - glucose - total protein - cholesterol - triglycerides - L-amylase - bilirubin (total) - bilirubin (direct) - HDL-cholesterol - LDL-cholesterol - HbF1 (glycated hemoglobin)	
14.	Glucose analyzer	
15.	Analyzer for determining pH and lactate	
16.	Spectrophotometer	
17.	Photoelectrocolorimeter (FEC)	
Municipal non-profit enterprise of Lviv Regional Council «Lviv Oncological Regional Medical and Diagnostic Center»		
18.	Expert-class ultrasound diagnostics device	2 pcs
19.	Expert-class anesthesia machine	3 pcs
20.	Shadeless operating light fixed to the ceiling, analogue to LED 5 MC	5 pcs
21.	Electrohydraulic operating table with a set of devices for proctological / gynaecological interventions analogous to OPX mobilis RG	5 pcs
22.	Electrosurgical multipurpose device with function of vessels and tissue electroligation Force Triad (Valleylab (Corporation Medvidronic Corporation))	3 pcs
23.	Electrosurgical, ultrasonic generator (Ethicon Endo-Surgery Inc)	3 pcs
24.	Monitors for patients with capnography V6 Primed or analogue	15 pcs
Municipal non-profit enterprise of Lviv Regional Council «Lviv Regional Clinical Diagnostic Center»		
25.	Magnetic resonance imaging (MRI)	1 pcs
26.	Portable ultrasound machine	3 pcs
27.	Ultrasound machine with cardiopack	2 pcs
28.	Ultrasound machines with abdominal and vaginal packages	2 pcs
29.	Digital video endoscopic rack (fibrogastroscopic)	2 pcs
30.	Colonoscope	3 pcs

31.	Fibrogastroscope	3 pcs
32.	Electrosurgical complex Erbe VIO 200S Electrosurgical Generator	1 pcs
33.	Automated washing machine for endoscopes with disinfection function	1 pcs
34.	Automatic coagulometer	1 pcs
35.	Automatic chemiluminescent analyzer	1 pcs
36.	Medical car (for forming exit crews)	1 pcs
37.	Electroencephalograph	2 pcs
Municipal non-profit enterprise of Lviv Regional Council «Lviv Regional State Clinical Medical and Diagnostic Endocrinology Center»		
38.	Expert-class ultrasound diagnostics machine	1 pcs
39.	Semiautomatic biochemical analyzer	1 pcs
40.	Immunoanalyzer	1 pcs
41.	Electrolyte analyzer	1 pcs
Municipal non-profit enterprise of Lviv Regional Council «Lviv Regional Phthisiopulmonology Clinical Medical Diagnostic Center»		
42.	Thoracic operating set	
43.	Videothoracolaparoscope (stand) with set of tools.	
44.	System for sterilizing and keeping endoscopic equipment and optics.	
45.	Ultrasound machine with coloured doppler and probes set.	
46.	2-regime pressure chamber	2 pcs
